Data Science for Social Good (DSSG) Summer Internship 2019
Meet the team

DSSG summer fellowship this year attracted global top talent from academia and industry. Competitively evaluated applications accepted by the DSSG fellowship program brings together the best of data science minds; researchers, PhD and Masters students, data science experts and mentors, who work together under one roof to create and scale Data Science solutions that can address societal challenges.

The DSSG fellows get an opportunity to attend lectures, engage with partner organizations and spend time creating Data Science solution for social good. It is an opportunity for co-working and developing ideas together.

In essence, the cohort of DSSG team are Data Science natives who understand tech and are inclined to work on projects with societal impact. Meet the team of 2019 DSSG Summer Fellowship at the University of Warwick and the Alan Turing Institute.
